Courses

It is time to talk...

General English Courses: (standard, intensive all levels)

These courses are specifically designed to prepare students for life in the international business area, improving language skills, social competencies and cultural awareness. Intensive courses are designed for students who studied English language at school but never had the opportunity to use or practice it outside of the formal school environment.

Business English courses:

These courses are specifically designed to prepare students for starting their business life in the international arena and to help them improve their language and social interaction skills. Marketing & Sales, Law, Psychology, IT and Medical English are just some of the courses offered. You will also get a chance to have workshops with experienced experts of each area during the course.

*** For every 30 lesson hours you spend in the classroom, you will also get 5 extra hours with your English Host Family & 8 extra hours with your teacher during outdoor activities!

10 hours free every week

All courses aim to improve fluency and build confidence in using English in a variety of situations with native English speaking host families and fellow international students. A variety of teaching techniques and materials are used by native English speaking instructors to help students produce and practice the language in a relaxed and supportive classroom atmosphere. Participants also have the opportunity to further practice their language with their native English speaking host families who are all trained in helping students with their language work and in giving language feedback that will help to improve their oral communication skills. The school is open all the year around. Tailor made group and individual courses are also offered at any time during the year. Participants will be given a placement test and enrolled on an appropriate course.

Courses are based on the Common European Framework of Reference for Language Learning and Teaching established by the **Council of Europe (CEFR)**. Upon completion of a course, students receive certificates indicating their CEFR level.

Accommodation

The best way to learn English fast is to immerse yourself in the language-at work, rest and play. The best way to do that is to stay with an English host family.

By living with them and spending time together you will learn more about both the language and the culture.

Our host families are chosen because of their interpersonal skills which enable them to help students converse in a safe and comfortable environment.

Single or double rooms with breakfast (or breakfast and dinner) and internet access are available. Since these are the homes of real people, facilities will vary, but all accommodation is chosen with care.

We also offer three, four and five star hotel options.

During your stay, you will have full access to our trained staff who are here to support you with anything you need, and are on-call to help you 24/7.

more Practice

Fethiye has a large English population, so wherever you look and whatever you see, you will find plenty of opportunities to practice, whether you are at home with your English family, walking down the street, having a meal in the restaurant, or simply lying in the sun with new friends from around the globe, you will be using English.

more English Residents

With over 7000 permanent English residents living in Fethiye, you can learn English in an English speaking environment while having a memorable visit to one of the most beautiful Mediterranean towns. What's more, over 600.000 English holidaymakers come to Fethiye every year, offering even more opportunities for practice and making new friends. In fact, with so many English people around, you sometimes feel as though you are in an English Town!

more Nature, Sun and Fun around Fethiye

Fethiye-Oludeniz, was chosen as the best tourism center in the world in 2007 by the Times and Guardian Newspapers, which means you can find more nature, sun and fun here too. Almost all the beaches are blue flag, located around a large bay, so you'll be able to socialise with your international friends and practise your English while enjoying the sun and sea.

more Social and Sporting Activities

Fethiye is paradise for all kind of activities. On the water, you can swim, snorkel, scuba dive, kite surf or take a relaxing boat trip. In the air you can paraglide or take a microlight flight, while on land you'll find everything from trekking and cycling to horse riding and quad biking. What's more, we will organise social activities during your stay to help you learn more. Enjoy a cultural evening with local residents, take a trip to the ancient city of Tios with some of your teachers, or brave the icy waters of Saklikent with your host family.

more Convenience

Getting a visa for Turkey is quick, easy and inexpensive. There are no lengthy procedures or document requirements and you can even get your visa upon arrival at the airport. Without the possibility of refusal, it is easy for you to travel to paradise to learn English.

We offer you more than anywhere else; more exposure to English, lower travel and living expenses and an unforgettable stay in a beautiful location,
